Η ομιλία θα πραγματοποιηθεί στα αγγλικά την **Τετάρτη 22 Σεπτεμβρίου 2010 και ώρα** 13:00, στο 2° όροφο του Εργαστηρίου Υγιεινής, Επιδημιολογίας & Ιατρικής Στατιστικής της Ιατρικής Σχολής Αθηνών (Μικράς Ασίας 75, Γουδή - Κτήριο 12).

Ακολουθεί σύντομο βιογραφικό σημείωμα του ομιλητή.

Hans-Olov Adami, MD, PhD
Professor and Chair
Department of Epidemiology
Harvard School of Public Health

Hans-Olov Adami, MD, PhD has started his career as a surgeon with a focus on oncology. He later shifted to epidemiology and served as Professor and Chair at the Departments of Epidemiology at the Uppsala University and the Karolinska Institutet in Sweden. He has also served as Member of the Nobel Committee. He is currently Professor and Chair at the Department of Epidemiology, Harvard School of Public Health and Associate Director of Populations Sciences at the Dana Farber/Harvard Cancer Center.

Prof. Adami is listed among the highly cited scientists in Medicine and has received several international honors and awards, including a honorary doctorate degree from the University of Athens.

His research focus has been on cancer epidemiology, with important contributions on breast, prostate, cervical, nasopharyngeal and other cancer sites. Currently, he is working predominantly on prostate cancer, with research ranging from genetic association studies to randomized trials of radical surgical treatment, and prediction of outcome using molecular and genetic markers.
